

EFI VUTEK GS 5250 LXR PRO THE MOST VERSATILE FIVE-METER PRINTER

INTRODUCTION

- Arrow has pioneered many ground breaking technologies and has been a leader in the digital printing/cutting field since decades; providing digital printing solutions to the Indian market.
- Arrow has given the most effective solutions to the world of digital printing, making dedicated efforts to take digital printing to great heights in various applications and industries.
- Arrow continues to lead the way with alliances in various industries carrying products from world leaders and inventors in their respective fields.
- With offices across India, we support our customers and educate the end users in Embracing disruptive technologies, hand holding, true 24/7 support, throughout the learning curve.

EFI VUTEK GS 5250 LXR PRO AT A GLANCE

The VUTEk GS5250LXr Pro delivers high-throughput performance and precise imaging thanks to its innovative and eco-friendly LED curing technology and true grayscale technology. And with EFI VUTEk GSLXr 3M™ SuperFlex UV Ink, you not only get an extended color gamut and maximum reliability and performance with your VUTEk system, but also super flexibility for fleet and vehicle graphics, outdoor applications and more.

EFI VUTEK GS 5250 LXR PRO THE MOST VERSATILE FIVE-METER PRINTER

Designed without compromise, the LED EFI™ VUTEK® GS5250LXr Pro printer offers the perfect combination of innovative technology and extraordinary performance to accelerate your success well into tomorrow.

EFIVUTEK GS 5250 LXR PRO

THE MOST VERSATILE FIVE-METER PRINTER

Printing technology uncompromised

- Eight colors plus optional white ink printing
- True variable drop grayscale print capability that will extend your reach into more lucrative, higher-volume jobs at a lower total cost of ownership
- Single-pass, multi-layer print capability for even more profit opportunity
- Increased up time and productivity while reducing maintenance with instant on/off LED lamps
- Lower operating costs with decreased power consumption, fewer consumable parts, and less waste with consistent color output and simple operation
- A greener printing solution to offer customers

EFIVUTEK GS 5250 LXR PRO THE MOST VERSATILE FIVE-METER PRINTER

- ✓ Banners
- ✓ Billboards
- ✓ Bus Shelters
- ✓ Day/Night Backlits
- ✓ Display Graphics
- ✓ Exhibition Graphics
- ✓ Fleet/Vehicle Graphics
- ✓ Indoor Signage
- ✓ Long Term Outdoor Graphics
- ✓ Point-of-Purchase Graphics
- ✓ Posters
- ✓ Wall Paper/Wall Coverings

EFI VUTEK GS 5250 LXR PRO PRODUCTIVITY

- Best Quality Mode (1000 dpi, 8 color, heavy smoothing) 300 ft²/hr (28 m²/hr)
- POP Quality Mode (600 dpi/grayscale, 8 color, heavy smoothing) 700 ft²/hr (65 m²/hr)
- Banner Quality Mode (600 dpi/grayscale, Fast-4™, heavy smoothing) 1,400 ft²/hr (130 m²/hr)
- Up to Speed (600 dpi/grayscale, Fast-4™, no smoothing) 2,800 ft²/hr (260 m²/hr)

EFI VUTEK GS 5250 LXR PRO LED TECHNOLOGY

- EFI LED “cool cure” technology uses less energy and removes the heat associated with traditional mercury arc lamp UV curing.
- According to a FOGRA study, EFI’s LED printers consume 82% less energy than traditional mercury arc based competitive printers, which improves the TCO.
- Removal of heat allows for color consistency, enables use of thinner media with less media and mechanical failure.
- Instant on/off requires less maintenance, increasing uptime to produce more profitable jobs. There is no warm up time, and LED bulbs last significantly longer than traditional arc lamps.
